District Governor Bronwyn Stephens

As I pen this little piece Past District Governor Vance Hilton has sadly passed and we mourn his loss and share sorrow together with Olga and his Rotary Club - Flemington. He was Governor in 1999-2000 and his legacy was reflected beautifully by President Lesley McCarthy on Facebook, in this District Bulletin, and others will share in other forums also.

This journey of District Governor is something I would recommend you consider. At present Nominating Committee positions are open and will remain so until 31st October. For more information go to the District website at <https://rotarydistrict9800.org.au/sitepage/district-information/district-governor-nomination>

They will have the confidential and astonishing task of interviewing candidates for the 2021-2022 District Governor. I journeyed this conversation. A most fascinating experience. The members of the panel were known to us .. our Rotary peers. Such is the privilege and joy of Rotary that this secret isn't known unless the candidate divulges it themselves. If they keep it their secret it remains so.

The opportunity to assist in some small way by connecting Rotarians projects and programs is what this role is about for me. I am so humbled that people have welcomed Mark and me continually and their expectations are not grand. We can be ourselves and a willing, resolved conversation with a smile is enough. Yes, we are spending a lot of time on the road travelling to Club meetings and in conversations, but that is a joy to be able to help with encouragement. Yes, there are some hours at the computer answering emails and reading Club Bulletins, but when it is in assisting Rotary projects and reading about what Rotarians are up to that is great news. We know that Grant as DGE and Philip as DGN will be following. We are all in planning and it is a 3 year phase.

The qualifications to apply for nomination as DG is to have been a Rotarian for at least 7 years and to have served as Club President. In reality I would suggest some time exploring Rotary leadership roles in your Club and beyond for a while. Have a conversation with some "wise owls". Someone saw something in me that I didn't see in myself. If someone has had that type of conversation with you please don't ignore it. I would urge you that this role is fun, you are well supported by a willing, wonderful and ready team and that you can do it.

The formal job description once appointed reads:

"As a district governor you have proven strong leadership skills and decision making. During your year in office, clubs will look to you for leadership, support, and motivation as they carry out service projects and participate in Rotary programs.

What you do

- Strengthen clubs, organize new clubs, and grow membership
- Encourage contributions and other support for The Rotary Foundation
- Promote positive public image and serve as spokesperson for district
- Develop a safe environment for youth participants
- Conduct district conference and other meetings
- Supervise district nominations and elections
- Prepare budget, provide annual report, and help administer District Designated Funds
- Complete online district qualification
- Work with governor-elect and other district leaders"

Remember though....there are so many wonderful Rotarians in our wider Clubs that are there to step beyond their own Club and support you. Stretch, and think about how you may realise this journey to support our Clubs. Don't back away from taking us into the future please...step confidently into this DG exploration conversation. Be the inspiration.

Rotary for me allows a person to take an idea to help another person, a community or the whole world... and for like minded people to join them to make it happen.

Top award for District 9800 Rotaractor

Ludovic Grosjean aged 29, of the Melbourne City Rotaract Club, is one of only six young innovators worldwide to win the 2018 “**Rotary’s People of Action**” award. This award is for humanitarian work involving cutting-edge technology and community collaboration.

Rotary International President Barry Rassin picked the winners personally. Ludovic receives the honor at the **United Nation’s Rotary Day** in Nairobi on November 9th.

Ludovic founded engineering consultancy **OceanX Group**, with eight people in Washington DC, France and Australia. The anti-pollution work includes combining artificial intelligence with sensors and drones.

<https://oceanxgroup.org/>

A local example: adding designing electronics for the Yarra’s 30-year-old litter traps and bins, so pollution can be identified and arrested in real time.

Ludovic came to Australia in 2013 and tested his anti-pollution know-how against our huge variety of coastlines.

His expertise includes amphibious drones that cope with winds, waves and corrosion. Four years ago, friend Mikael Lombard in Nice, Monaco urged him to join Rotaract. He became president of Melbourne City Rotaract last year, while the Mikael became president of the Rotaract Club of Nice, Baie des Anges.

They competed to do the best projects. Ludovic’s club (15 members and 100 helpers and volunteers) launched the Yarra clean-up project involving a dozen Rotary clubs, environment groups and authorities.

“My team could fish out three dumped O-Bikes a day but there’s hundreds left,” he says.

"Plastics in waterways is a massive global threat. "We have to stop it at source for the sake of humanity itself," he says.

The ocean crisis includes

- # "The Great Pacific Garbage Patch" – a raft of junk the size of Texas
- # On present trends, by 2050 there will be more ocean plastic than fish
- # Nine million tonnes of new plastic waste enters per year, threatening marine life and putting micro-plastic beads into our own meals and even table salt.

<https://oceancleanx.com/ocean-cleanx-solution/>

Technology won't be a cure without whole populations being educated towards cleaner water.

"Nearly 95% of ocean plastic-pollution arrives via ten great rivers," he says.

"But I don't refer to any, it's not just "third world developing countries" pollution problem, because we set up the export industries there. We should now take responsibility.

"Our designers should understand the entire sourcing and life-cycle of the products. We ourselves need to urge less packaging and more local consumption. It's real social change that aligns with all our Rotary values."

"When my engineer grandfather Maurice was nearing his time, he asked me,

"What will you do to make this world a better place?'

So I'm I am using amazing technology for healthier waterways to save our oceans, and communicating to everyone why it matters."

VALE ~ Past District Governor Vance Hilton

Members of the **Rotary Club of Flemington** together with Rotarians across District 9800 mourn the passing of Vance Anthony Hilton, OAM, KSJ.

As a Charter Member, Past President and Paul Harris Fellow, Vance served the Rotary Club of Flemington as Secretary from its Charter and in 1987-1988, as President in 1995-1996.

The Club made him an Honorary Life Member in July this year.

Vance Hilton was selected to serve as the District 9800 Governor in 1999-2000 and led a very successful District Conference in Canberra.

He later served on the **Australian Rotary Council of Governors** and as a Board Member of **Rotary Down Under** from 2004-2010. He was Rotary Down Under chairman from 2008-2010, and was awarded the **RDU Distinguished Service Award** in August 2011.

Vance was also a Knight of the Order of St John of Jerusalem, an invitation extended to him by Royce Pepin of the Rotary Club of Footscray in 1978.

During Vance's year as District Governor, one Ian Riseley also served as District Governor in his district.

The Rotary theme for that year under then Rotary International President Carlo Ravizza, of the Rotary Club of Milano Sud-Ovest, Italy was **"Act With Consistency Credibility Continuity"**.

This was an ethos which Vance followed. He embodied the ideals of Rotary in all his business dealings and was a dedicated Rotarians.

Our sympathies are extended to his widow Olga, Past President of the Rotary Club of Melton and to his family.

Vance will be farewelled at a service at Overnewton Castle, 51 Overnewton Road, Keilor on Monday October 8th at 1pm. A Private burial will follow.

Donations to Parkinson's Victoria in memory of Vance are welcomed.

RI President Barry Rassin

Every Thursday morning, I receive an email from the **World Health Organization** with an update on the status of polio eradication. It contains a wealth of information, country by country: where and how immunization campaigns are being conducted, how many millions of children are being vaccinated, and where environmental surveillance has found evidence of circulating virus.

But every week, when that email appears in my inbox, my heart seems to stop for just a moment until I read the first few lines – and learn whether a child was paralyzed by wild poliovirus that week.

That, my friends, is where we are today in the work of polio eradication. The question on my mind as I open that message isn't how many thousands of cases we might see in a year, as we did not too long ago, or even how many hundreds. Instead, when that WHO email arrives every Thursday, the single, binary question it answers is: Was there a new case this week, or wasn't there?

Thirty years ago, 1,000 children were paralyzed by polio every single day. Since then, we've marked our progress, year by year, week by week. We've celebrated as country after country, region after region has been declared polio-free. As we've come closer and closer to our goal, and the number of cases has dropped further and further, the children those numbers reflect have become less and less of an abstraction. When I open that Thursday email, I don't wonder what number I'll see. I wonder, was a child paralyzed this week or not?

We are so close to eradication – but there is so much work left to do.

This month, I ask every Rotary club to help **End Polio Now** by marking **World Polio Day** on 24 October. Last year, thousands of Rotary clubs around the world held events to raise awareness and funds for polio eradication. This year, we want to see more World Polio Day events registered than ever. If you have an event planned, be sure to register and promote it at endpolio.org so that more people can take part. If you haven't planned one yet, it's not too late – visit endpolio.org to find ideas, information on this year's livestream, and resources to help your club organize a successful event.

World Polio Day is a tremendous opportunity for clubs to highlight Rotary, and our historic work to eradicate polio, in their own communities. It is also a great way to take advantage of the challenge from the Bill & Melinda Gates Foundation: For every dollar that Rotary raises for polio eradication, the Gates Foundation will give two more. Join me, and Rotarians everywhere, on 24 October for World Polio Day – and *Be the Inspiration* for a polio-free world.

Public Image Workshop Inspires

Baden Powell College was host to a fantastic Public Image workshop led by District Chair Kerry Kornhauser and Zone Public Image Coordinator DG Julie Mason on Wednesday.

Utilising the facilities and technology at the school, Kerry led participants through the Rotary International Brand Centre to design and create brochures for their clubs. Utilising templates and adding their own images, they worked to create unique and attractive promotional materials.

<https://brandcenter.rotary.org/en-GB> {My Rotary login required}

Coming from clubs across the District, and each with individual skill sets and technology capabilities, there was much chat and a great deal of sharing ideas and expertise, connection and transforming during the 3 hour session.

Would you like the opportunity to participate in such an exercise?

These participants are all keen for another session to enhance what they have already learnt and develop new resources to promote Rotary and their clubs.

Contact Kerry Kornhauser at kerry.kornhauser@gmail.com

Listen to District Governor Bronwyn Stephens chatting with Public Image Chair Kerry Kornhauser about the District efforts to support farmers during the drought.

<https://www.youtube.com/watch?v=fAJIWEZCOcc>

There are several ways Rotary Clubs in this District are assisting in the drought effort. Creative and innovative ways that our farmers and communities have requested. We have another opportunity to partner with Foodbank. They are providing free transportation for us and this is just another way to assist.....and to connect with our community all the while....please read on.

D9800 has a new initiative, working with Foodbank to collect all types of practical goods, treats - what communities have asked for and most particularly what the school communities have requested.

Rotary District 5550 is in Central Canada including the Provinces of Saskatchewan (SK), Manitoba (MB) and a small part at the West side of Ontario (ON).

We have 46 Clubs and 1400 members.

The District is quite large (covering almost 1,000,000 Square Kilometres) and outside of the few cities it consists mostly of Farming and Lake Country. Because of the large area an RFE team would likely only see part of the District. We have 3 international airports, one in Winnipeg, MB; one in Regina, SK and one in Saskatoon, SK.

The largest city, Winnipeg, is situated at the confluence of 2 major rivers, the Red and the Assiniboine. It was these waterways that attracted the original settlers in the 1800's. Winnipeg has many major tourist attractions: The Canadian Museum of Human Rights; Royal Canadian Mint; and The Forks National Historic Site to name a few.

Regina, although situated on a flat plain with few indigenous trees, boasts of some of western Canada's most innovative urban landscaping, with plentiful green spaces, hiking and biking paths, playgrounds, and parks throughout The city. Regina is home to Canada's Royal Canadian Mounted Police (RCMP) Training Academy.

Saskatoon, named for the sweet berry that grows wild in the region, offers various cultural festivals, concerts and sporting events throughout the year. Explore the beautiful parks and trails around this beautiful city.

Only 40% of our Clubs are in these 3 major cities with 28 more clubs in small cities and towns. Travelling to other Clubs throughout our District, visitors will begin to understand the vastness and wilderness of Canada. Animals native to Canada are easily seen in refuges or in the wild. In particular Riding Mountain National Park is worth a visit.

We are a diverse and multicultural country with residents from many ethnic groups, all celebrating their heritage with festivals.

VALE

The **Rotary Club of Caulfield** mourns the passing of Dr Graham Sicklemore on 28th September.

Graham gave dedicated service to the Club over some 48 years including two terms as President and was a Paul Harris Fellow. Graham was appointed the District Governor's Special Representative in the sponsoring of a new Rotary Club now known as The Rotary Club of Glen Eira which celebrated its 30th Anniversary last year. Graham served the Club as Bulletin Editor for many years and members always enjoyed his weekly topical doggerel, which was sharply etched and indicative of his wry sense of humour.

The **Rotary Club of Balwyn** mourns the passing of Allen Pretty who passed away this week aged 91.

Allen was a devoted Rotarian – giving his wise counsel to the subject of Governance and By-Laws as well as the many Committees he lead and served during his life in Rotary.

Allen was a Rotarian for 40 years – 28 of them at the Rotary Club of Brighton.

His Funeral Service will be held at the Federation Chapel in Lilydale Memorial Park (126-128 Victoria Road Lilydale) next Monday (8th Oct) at 1pm.

He'd love to see Rotary friends and partners there. Key speaker is Bill Kininmonth, a former senior executive of the Bureau of Meteorology, and Perth-raised like Tony.

After the launch it's optional to head downstairs for a light dinner.

Tony says, "When I was reporting for *The West* Australian in the 1960s pre-boom, I enjoyed doing slice-of-life pieces about unsung people like watch repairers, furniture removers, wood choppers and rubbish dump caretakers. I'd get behind the scenes at events like pop concerts, the speedway, and the theatre. I'd meet colourful characters like anthropologists still travelling the North-West by camel, and the last of the Chinese market gardeners in South Perth. It's all a colorful miscellany of small city stuff that lived 'below the radar'. That was my happy-go-lucky era and I hope, fun and curiosity come across in these pages. There's about 80 of these short pieces."
